

## EXECUTIVE SUMMARY

---

### Electrical & Data Infrastructure Specialists

Delivering integrated power solutions for  
complex development projects across South Africa

**1995**

ESTABLISHED

**30**

YEARS EXPERIENCE

**Level 2**

B-BBEE RATING

# Core Capabilities

Enterprise-grade infrastructure using structured EPC (Engineer, Procure, Construct) methodology. We partner with major retail chains, industrial facilities, and commercial developers across South Africa.

## **P** Power Infrastructure

- UPS Systems: 500VA to 500kVA (double-conversion, long-run, rack-mount, outdoor)
- Diesel Generators: 10kVA to 2000kVA+ with synchronisation and remote monitoring
- Solar & Hybrid Systems: 5kVA to 500kVA+ with lithium/lead-acid storage
- Integrated Power Ecosystems: UPS + Generator + Solar with intelligent management

## **E** Engineering & Project Delivery

- EPC Turnkey Delivery: Complete Engineer, Procure, Construct project execution
- Load Assessments: Power auditing, system sizing, three-phase load balancing
- Compliance: SANS, ISO 9001/14001/45001, TIA/EIA, OEM specifications
- Certifications: COC, Category 5/6 cabling, commissioning reports, as-built drawings

## **D** Electrical & Data Infrastructure

- Electrical: Single/three-phase systems, distribution boards, lighting, phase rotation
- Data & Network: Cat 3-7 cabling, fibre optics, data racks, certified testing
- Integrated Systems: CCTV, access control, environmental monitoring, cooling

## **L** Lifecycle Support

- 24-Hour Call Centre: Dedicated service coordination desk for SLA clients
- Preventative Maintenance: Scheduled servicing, battery tests, load tests, diagnostics
- Remote Monitoring: Real-time alerts, fuel/battery tracking, predictive maintenance
- National Support: Multi-site capability, emergency response, structured SLAs

## Sector Experience

---

RETAIL & BIG-BOX

INDUSTRIAL

MINING

CORPORATE

RESIDENTIAL ESTATES

### Major Clients Include:

- Walmart/Massmart
  - Retail: Game, Makro, Builders
  - Wholesale: CBW, Jumbo Cash & Carry, Sunshine, Trident, Eureka, Saverite
- Checkers
- Dis-Chem
- Sevens Furniture
- Verimark

## Commercial Value

---

### 1 Operational Resilience

Minimised disruption, seamless power transitions, load shedding protection

### 2 Cost Control

Reduced operating expenses, extended equipment lifecycle, predictable service costs

### 3 Scalability

National rollout capability, multi-site coordination, standardised specifications

### 4 Compliance

Audit-ready documentation, regulatory compliance, ESG alignment

### 5 Environmental Responsibility

ISO-aligned e-waste management, sustainable lifecycle practices

# Why Partner With UDE Power

---

**01**

## Integrated Capability

Integrated electrical and data from one provider

**02**

## Specification-Driven

Installations match design intent exactly

**03**

## Compliance-Certified

Comprehensive testing and official certification

**04**

## Proven at Scale

Nearly three decades with major chains

**05**

## National Reach

24-hour service for critical operations
